

protecting everyone

Pal Clean + Protect is focused on the **outcome** and the **individual**.

Cleaning doesn't just happen; it takes people to initiate action. With duality at its core, Pal Clean + Protect understands that high quality cleaning requires trusted solutions and should not come at all costs.

Pal Clean + Protect is designed to deliver high cleaning power with safe formulations. The **results** you want with the **safety** you need.

solvent cleaner

Solvent cleaning without solvent complications

Pal Clean + Protect solvent cleaner wipes provide high strength cleaning power, without the harsh VOCs or unpleasant odour of typical solvent based cleaners.

With no need to wear a mask and with high solubilisation power, these wipes remove silicones, oils, paints, adhesives and more with ease.

These extra-large, ultra-low linting and incredibly strong wipes give you the reassurance needed to effectively clean without fear of unwanted fibres or debris.

Easily cleans

- ✓ Silicones

simple to use • **proven effective** • located in arm's reach

VOC free, safe cleaning

Task outcomes combined with user safety are at the heart of the Pal Clean + Protect brand, and with this pack we bring highly effective, versatile solvent cleaning power to the task but without the common side effects of many industrial solutions. With no need for masks or gloves, Pal Clean + Protect solvent cleaning wipes are:

- ✓ VOC free
- ✓ Odour free
- ✓ Non-toxic
- ✓ Non-hazardous
- ✓ Non-irritant
- ✓ Neutral pH

Wipes that stand up to the task

Tritex® Tough Professional combines strength, size and ultra-low linting properties to create our most distinctive substrate to date.

TRITEX®
TOUGH PROFESSIONAL

Bigger and stronger wipes for professional use

Tritex® offers high strength in both directions - across and along the wipe and does not snag, tear or deform in use.

Low linting

Very low risk of unwanted fibres contaminating sensitive surfaces during use.

High solution retention

Even wetness throughout the wipe gives more consistent efficacy in use and means no pooling in the pack.

Easy solution release

With just gentle hand pressure, the liquid formulation is released from the wipe's fibrous pockets and transferred to the surface being cleaned.
