

New Sustainable Catering Equipment

GREENHAM
Protecting People Everyday

Introducing our new range of eco-friendly catering equipment, which is 100% recyclable and made from 100% recycled materials.

Compostable Tableware

The Eco-Fibre range is sustainable and made from 100% rapidly renewable and reclaimed resources. The base material is a by-product of wheat (using the straw and not the grain) and is certified gluten free. Unbleached, it is preferable to paper and wood pulp.

Wooden Products

Great attention to detail is required when producing wooden products. Only the finest grade of birchwood is employed ensuring the quality of the finished products. Wooden cutlery is designed with soft, smooth edges making them suitable for food use. These products are biodegradable and specially designed to disintegrate within months of disposal.

	Product	Size	Pack	Code
1	Eco Fibre Side Plate	18cm	1000	742826
2	Eco Fibre Dinner Plate	23cm	1000	742827

	Product	Pack	Code
1	Certified Birch Knife	1000	742829
2	Certified Birch Fork	1000	742830
3	Certified Birch Spoon	1000	742831

Premium r-PET Glasses

These eco-friendly products are made from food safe, 100% post-consumer waste from items such as water & soda bottles using carefully selected 100% recycled material, guaranteeing a high quality product with excellent clarity.

The material used is collected, sorted, cleaned and re-ground before being used in manufacturing again, ensuring this valuable material has a second use and diverts it from landfill or our rivers, streams and oceans.

The material is sourced from an EFSA (European Food Safety Authority) registered supplier in accordance with EU282/2008 regulation on recycled plastic materials.

Made in Europe which gives them a low carbon footprint.

- 100% r-PET Glasses
- 100% recycled content

** Recyclable after use*
