THE FOAM EARPLUG WITH **EXTRA** BENEFITS

**EXTRA** EASE OF USE

**EXTRA** COMFORT

**EXTRA** PROTECTION

**E·A·R.**

**EXTRA EASE OF USE**

The flange shape when rolled down serves as a very effective insertion device. This makes fitting the earplug so easy, that you can guarantee a correct fit every time! This soft, shaped earplug overcomes any fears you or your workers have with fitting hearing protection.

**EXTRA COMFORT**

Designed to provide the ultimate in comfort and protection, E A Rsoft FX is the latest innovation from E A R. The E A Rsoft FX's smooth tapered finish makes fitting easier and helps form a soft and comfortable fit in the ear canal.

**EXTRA PROTECTION**

E A Rsoft FX earplugs feature a patented shape to fit more effectively in the ear canal. The result: Tests prove that EARsoft FX provides the highest protection of any earplug in the market today - **SNR 39dB!** You can't get higher protection with the added advantage of ultimate comfort.

**E A Rsoft FX are available with or without a cord.**
