

Supervizor Visor

Article No: 83252028 SV9PC

Description:

Heavy duty visor for use with Supervizor Browguard and helmet attachments.

Materials:

Visor - optically clear polycarbonate.

Weight:

106g approx.

Standards Compliance:

EN166 39-B

Technical Performance:

Impact resistance - 6mm steel ball at 120 m/s.

Visible light transmission - 90% minimum.

UV absorption - 99.5% up to 365 nm.

Heat resistance - up to 125°C.

Molten metals/Hot solids - Resistant to adherence of molten metals and hot solid penetration in accordance with EN166.

Chemical resistance - protects against splashes of liquids and liquid sprays; materials resistant to attack by numerous solvents, acids and alkalis.

Applications:

Protects against impacts from flying particles of medium energy, molten metal splashes, hot solid penetration, liquid splashes and crop sprays all in accordance with cited standards.

Packaging:

Individual polythene bags.
