

The UKCA (UK Conformity Assessed) marking is a new UK product marking that is to be used for goods being placed on the market in Great Britain (England, Wales and Scotland). It covers most goods which previously required the CE marking.

The UKCA marking came into effect on 1 January 2021. However, to allow businesses time to adjust to the new requirements, we are still able to use the CE marking until 1 January 2022 in most cases.

This does not apply to existing stock, for example if our goods were fully manufactured, CE marked and ready to place on the market before 1 January 2021. In this instance, our goods can still be sold in Great Britain with a CE marking even if covered by a certificate of conformity issued by a UK body before 1 January 2021.

UK CA

UKCA will not be recognised in the EU market. Products that require CE marking will still need a CE marking to be sold in the EU.

All products offered as part of our Exclusive Brand ranges will be dual marked to both regulations.

We are actively in the process in ensuring all our products are certified to both regulations and are working with a number of Notified and Approved Bodies to achieve this.

Over the coming months you will start to see the UKCA symbol displayed on our products.

During this time we will be undertaking the necessary steps to update our product information via our website and product literature.

If you require any further information regarding UKCA for any of our products please contact technicalsupport@greenham.com
