

Office Wipes

Cleanline Office Wipes are a multi-surface antibacterial wipe designed for professional use to clean and disinfect office equipment, keyboards, telephones, displays and personal protective equipment.

- Designed for cleaning and disinfecting small surfaces and can be used in an office on equipment such as VDU's, telephones or desks.
- Proven to kill microorganisms such as bacteria, fungi, yeasts and enveloped viruses.
- Office Wipes contain a blend of three active ingredients in the formulation. Didecyl dimethyl ammonium chloride (DDAC) is an antiseptic/disinfectant that is used in many biocidal applications.
- Suitable for cleaning personal protective equipment such as breathing apparatus, face masks & safety boots.
- Small and compact for easy storage canister of 100 wipes (1/2 litre).
- Dermatologically Tested.
- Specialist wipe material are 100% synthetic and offers high strength for wiping application.
- Very low linting (low risk of leaving contaminating fibres on surfaces).
- Independently tested to a range of European standards including EN1276, EN13697, EN13727 and EN14476.

DIRECTIONS FOR USE:

Remove lid and thread the first wipe through hole in centre of the lid. Replace the lid and tear wipes at perforations. Close the centre cap after use. To disinfect allow required contact time.

CODE AND CASE SIZE:

CL4036 - 100 Wipe Tub (Case of 10)

PRODUCT INFORMATION:

Appearance: Wet Non-woven wipe material

Colour: White

Odour: Slight chemical odour

pH as supplied: 6.0 -8.0

PCS code: 100104

CONTAINS:

Alkyl Dimethyl Benzyl Ammonium Chloride 1.77g/kg, Alkyl Ethyl Benzyl Dimethyl Ammonium Chloride 1.77g/kg, Di-decyl dimethyl-ammonium chloride 1.77g/kg

QUALITY ASSURANCE:

This product is manufactured in the UK for Bunzl UK & Ireland and produced under ISO 9001 Quality Management System & ISO 14001 Environmental Management Systems.

ENVIRONMENTAL:

All surfactants used in Cleanline products comply with the current European regulations concerning biodegradability & protection of the environment.

INGREDIENTS & FORMULATION:

Specially formulated solution containing N,N-bis (3-aminopropyl) dodecylamine. The disinfectant is characterised by good activity against mycobacteria, low efficiency loss under protein load and little foaming as well as being quat, alcohol and PHMB free which makes it ideal for use within the food industry.

SAFE HANDLING:

Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Dispose of wipes in accordance with local legislation. Do not flush wipes. Keep out of reach of children.

SAFE STORAGE:

Store sealed in original container in a cool, well ventilated area away from direct sunlight and extremes of temperature.
