### Product Description

Elevate your washroom experience with trusted and familiar Scott® Essential™ washroom solutions, designed to help you support washroom hygiene standards in high frequency environments without compromising on quality and value. Scott® Essential™ Slimroll™ paper towels are designed to be detectable for hand drying in contamination critical environments that demand consistency. These hand towel rolls offer reliable everyday hand drying in washroom environments that have limited space. These compact paper towels have best in class efficiency vs. competitor systems designed to service a smaller washroom footprint. This blue roll features our unique Airflex™ Technology resulting in faster absorbency for more hygienic hand drying, whilst also using less and creating less waste, helping you get more for your spend whilst improving workplace hygiene. Our touch free dispensers reduce the risk of cross contamination to support high hygiene standards in the workplace. The Kimberly-Clark Slimroll™ is proudly stamp embossed with the Scott® brand for customer assurance to encourage washroom hygiene. These rolled paper towels are European Ecolabel certified for environmental assurance and are also food contact certified. These hand towels feature compression technology for increased sustainability through reduced storage and transportation. These paper towels for dispensers are compatible with the one-wipe-clean Aquarius™ rolled hand towel dispenser in white (code 7955) or black (code 73956), this compact paper towel dispenser has a never-run-out 'stub roll' feature that increases the capacity of this system by 5%. 6 x 190m = 4,560 blue, 1 ply Slimroll™ rolled hand towels (1,140m total)

### Product Features

- Each roll of blue paper towels contains 190 metres of 1 ply rolled hand towel, equivalent to 760 sheets of paper hand towel
- The roll towels are European Ecolabel certified for environmental assurance and food contact certified
- This roll of paper towels is proudly stamp embossed with the Scott® brand for customer assurance
- Scott® Essential™ Slimroll™ blue hand towels are detectable for hand drying in space constrained contamination critical environments
- Compatible with the one-wipe-clean Aquarius™ rolled paper towels dispenser in white (code 7955) or black (code 73956)
- These compact hand towels utilise Airflex™ Technology for faster absorbency and more hygienic drying
- Choose this Scott® Slimroll™ blue roll for best in class efficiency vs. competitor systems with a smaller footprint

## International Standards and Symbols

### Solution

#### Healthier Workplace

The HEALTHY WORKPLACE PROJECT\* is a comprehensive office hygiene programme which helps engage employees and reduce sickness.

### Standard R+E

#### Food Contact Regulations

This product is suitable for food contact and complies with Regulation (EC) No. 1935/2004. Furthermore, nitrile rubber gloves comply with Regulation (EC) No. 10/2011 and German Recommendation, BfR No. XXI, and paper products comply with German Recommendation, BfR No. XXXVI.

#### AIRFLEX\* Technology

AIRFLEX\*

#### Compression

KIMBERLY-CLARK PROFESSIONAL\* is using new air compression technology to fit up to 18% more paper hand towels into each case, resulting in a range of commercial and environmental benefits. The technology is being applied across a range of KLEENEX and SCOTT Hand Towels manufactured using AIRFLEX\* Fabric. Compressed AIRFLEX\* Fabric towels will continue to offer superior absorbency and strength and outstanding levels of hygiene and comfort. Along with the following additional benefits: Environmental, it means more towels per truck so fewer trucks on the road. Packaging waste is also reduced. End-users will now need to use less warehouse storage space for the same amount of hand towels, while more towels in each sleeve will mean fewer refills are required.

### Trade

#### ISO 14001

ISO 14001 is an international environmental standard. Designed to help organisations ensure that operations comply with environmental laws, and; major environmental risks and liabilities are properly identified, minimised and managed.

#### ISO 9001

This gives the requirements for quality management systems, is now firmly established as the globally implemented standard for providing assurance about the ability to satisfy quality requirements and to enhance customer satisfaction in supplier-customer relationships.

#### Regulation (EC) No 66/2010 of the European Parliament

The European Ecolabel scheme encourages businesses to market products and services that are kinder to the environment. Only products that meet strict environmental standards are entitled to use the Ecolabel accreditation.
