

DUPONT Tyvek®

Tyvek® 500 Xpert Eco Pack

Protection that doesn't cost the earth

At **DuPont**, we are committed to protecting our environment. While always aiming for continuous improvement for more sustainable solutions, we offer you this Eco Pack option as an alternative to our standard packaging for Tyvek® 500 Xpert coveralls:

With **Eco Pack**, you have 25 garments in a value pack together with one IFU, instead of an individual packaging together with one IFU for each garment unit. The product and its performance remain exactly the same but the changes in packaging, reduce the use of paper and plastic and thus help to better protect the planet.

You can also benefit from the eliminated cost of additional paper and plastic, which is reflected in your purchase price.

The concept | the same product, less packaging
